Insurance coverage for recovery

More and more Americans are outliving cancer, stroke, heart disease and other critical illnesses. It's a mixed blessing. On the one hand, it's another chance at life and family. On the other, surviving a critical illness brings with it considerable financial demands at a time when life is already demanding.

There's life insurance for loved ones who live on. There's disability insurance to help recoup lost income when an illness keeps you from earning your paycheck. But what about the gaps—those additional expenses that come with battling a major disease, when you're least able to meet them? As a hedge against the lost income, out-of-pocket medical expenses and all the "little things" that add up, there is Voluntary Critical Illness Insurance (VCI) from Reliance Standard.

The VCI plan offers employers a valuable benefit at no direct cost, and employees an excellent opportunity to purchase valuable coverage in the increments right for their family, through convenient payroll deduction.

Limitations

- ▶ **Pre-existing Condition Limitation**
Our Critical Illness plans include a "12/12" pre-existing condition limitation subject to state requirements. A pre-existing condition is any condition (whether diagnosed or not) for which an insured received treatment, consultation or services, including diagnostic procedures, or for which he/she took prescribed drugs or medicines within a specified period of time (12 months) before the individual effective date of coverage. Benefits would not be payable for a Critical Illness due to a pre-existing condition, should the insured be diagnosed with a Critical Illness due to such pre-existing condition within the first 12 months of coverage.

Exclusions

The following is a list of some of the exclusions. A critical illness benefit will not be paid under the following circumstances:

- ▶ Committing a felony
- ▶ Injury or sickness that occurs while the insured is confined in a penal or correctional institution
- ▶ Participation in a riot or insurrection
- ▶ Critical Illness which is diagnosed during the Benefit Waiting Period
